 Whole-House Improvement Bonus (perform seven or more measures)	\$500	\$500	\$400
Minimum Efficiency for Measure			
Air Sealing (20% reduction)	\$100	\$100	\$40
Air Sealing (30% reduction)	\$150	\$150	\$60
Air Sealing (50% reduction)	\$200	\$200	\$80
Duct Sealing (15% reduction)	\$50	\$50	\$15
Duct Sealing (30% reduction)	\$100	\$100	\$35
Duct Insulation (must insulate a minimum of 25 linear feet to R-6 or higher)	\$50	\$50	\$15
Roof (Attic) Insulation (R-30 or less existing condition, effective R-value insulated to R-49. Must insulate a minimum of 500 square feet)	\$250	\$250	\$70
Above-Grade Wall Insulation (R-0 to R-13 existing condition or less, insulated and air sealed to minimum R-13 for 2 x 4 cavity walls or R-21 for 2 x 6 cavity walls. Must insulate a minimum of 500 square feet of wall area)	\$200	\$200	\$50
Basement Wall Insulation (R-0 insulated to R-5. Must insulate a minimum of 500 square feet of wall area)	\$100	\$100	\$70
Crawlspace Insulation (R-0 to R-13 existing condition, insulated to R-19 and Air Sealed, R-10 with foam. Must insulate a minimum of 200 square feet of wall area)	\$100	\$100	\$20
Floor Insulation (R-0 existing condition, insulated to R-10. Must insulate a minimum of 500 square feet)	\$100	\$100	\$20
Rim Joist Insulation (Air Seal and Insulate to R-10. Must insulate all accessible rim joist areas)	\$100	\$100	\$20

*Applications must be received by December 31, 2013, to qualify for incentive levels advertised on this rebate chart.

Minimum Efficiency for Measure	Consumers Energy Customer Type		
	Gas and Electric	Gas Only	Electric Only
Natural Gas Furnace 94 AFUE or Higher AHRI Rated	\$400	\$400	N/A
Operations and Maintenance Natural Gas Furnace/Boiler Tune-Up (must be performed by a participating contractor who offers the qualified tune-up service)	\$50	\$50	N/A
ECM Motor (factory installed in new furnaces only)	\$100	N/A	\$100
Natural Gas Boiler 90% AFUE or Higher AHRI Rated (replacement only)	\$1,250	\$1,250	N/A
Split System Central A/C 15.0 SEER or Higher AHRI Rated	\$300	N/A	\$300
Operations and Maintenance Central A/C Tune-Up (must be performed by a participating contractor who offers the qualified tune-up service)	\$50	N/A	\$50
Air Source Heat Pump 15.0 SEER or Higher AHRI Rated (replacement of existing heat pump only—replacement of existing air conditioner does not qualify)	\$300	N/A	\$300
Ground Source Heat Pump 17.0 EER or Higher AHRI Rated (replacement of existing ground source heat pump only)	\$500	N/A	\$500
Tankless Water Heater .82 EF	\$200	\$200	N/A
High Efficiency Gas Water Heater .67 EF or greater	\$120	\$120	N/A
Window/Patio Door Replacement .30 U-factor*	\$2 per square foot of window area up to \$500	\$2 per square foot of window area up to \$500	\$2 per square foot of window area up to \$500

*Solid-core doors with glass lites smaller than 75 percent of total door area, glass block, and storm doors do not qualify.

The Consumers Energy Home Performance with ENERGY STAR® (“HPwES”) program will be offered for a limited time in all Consumers Energy’s territories. Incentives are subject to availability. Before investing in energy efficiency improvements, please confirm the availability of rebate funds through a local participating contractor in the Consumers Energy HPwES program or by contacting the program at (866) 234-0445 or ConsumersEnergy.com/myhome. Eligible Consumers Energy customers can reserve rebate funds after they have received a full diagnostic HPwES assessment. Customers are only eligible for the incentive associated with their service.

To qualify for rebates in this program, use of a Consumers Energy HPwES participating contractor is required to perform the comprehensive home assessment pre- and post-inspections. The participating contractor performing the post-inspection will be responsible for submitting the rebate application on behalf of the customer.
